Dear Carol,

Rebecca Price, the Hood student who wanted work and was to take over from you has done nothing. It was not until this weekend, when she did answer the phone, that I not only learned that but also that you had not gotten the work you have to her and that she had not gotten it from you.

I called your previous phone number and got a recorded announcement for a Sheryl, not for you. I left a message asking for your number and in two days there has been no response.

I am, of course, quite anxious to get the work you have and will appreciate it if you will please arrange to return it.

We hope you are well and happy and that your work is not overwhelming.

Sincerely,

Harold
